

| <b>MODULES</b>                      | <b>PROF.</b>                          | <b>DATE</b>       | <b>SITE</b>  |
|-------------------------------------|---------------------------------------|-------------------|--------------|
| Biostatistics                       | Pedro Oliveira                        | Jan. 9-13         | IBMC         |
| Ethics, Science and Society         | Anna Olsson & Júlio Borlido Santos    | Jan. 16-20        | IBMC         |
| Regulation of Gene Expression       | Alexandra Moreira                     | Jan. 23-27        | IBMC & IMM   |
| Cell Division & Differentiation     | Hélder Maiato                         | Jan. 30 - Feb. 10 | IBMC         |
| Tissue Engineering and Regeneration | Ana Paula Pêgo                        | Feb. 13-17        | INEB         |
| Immune System                       | António Freitas & Benedita Rocha      | Feb. 27 - Mar. 16 | IBMC         |
| Formal and Population Genetics      | António Amorim                        | Mar. 19-23        | IPATIMUP     |
| Microbiology and Infection          | Didier Cabanes                        | Mar. 26-30        | IBMC         |
| Structural Biology                  | Sandra Macedo Ribeiro & Pedro Pereira | April 2-5         | IBMC         |
| Oncobiology                         | Raquel Seruca                         | April 9-20        | IPATIMUP     |
| Developmental Biology               | Domingos Henrique                     | April 23-27       | IMM          |
| Parasitology                        | Ana Tomás                             | April 30 - May 4  | IBMC         |
| Iron Biology                        | Graça Porto                           | May 7-9           | IBMC         |
| Genetic Epidemiology                | Alda Sousa                            | May 14-18         | IBMC         |
| Human Genetics                      | Peter Heutink                         | May 21-25         | IBMC         |
| Neuroscience                        | Albino Jorge Oliveira-Maia            | May 28 - June 1   | Champalimaud |
| Neurodegenerative Diseases          | Maria João Saraiva                    | June 4-8          | IBMC         |

|                                    |                    |            |      |
|------------------------------------|--------------------|------------|------|
| Nerve Regeneration                 | Mónica Sousa       | June 11-15 | IBMC |
| Neurobiology of Addiction          | Teresa Summavielle | June 18-22 | IBMC |
| RhoGTPases and cell signaling      | João Relvas        | June 25-29 | IBMC |
| Bioentrepreneurship and Innovation | André Faustino     | July 2-4   | IBMC |
| Systems and Synthetic Biology      | Pedro Beltrão      | July 9-13  | IBMC |
