

T Cell Activation

March 9th, 2012

PROGRAMME

09H50

Signal regulation at the T cell immunological synapse and its subversion by HIV-1

Andres Alcover, Institut Pasteur, Paris

10H45

Controls on receptor phosphorylation in T-cells

Simon Davis, University of Oxford

11H30 - Coffee Break

12H00

Membrane raft nanodomains and T cell signaling

Hai-Tao He, Centre d'Immunologie de Marseille-Luminy

13H00 - Lunch

14H15

Conformational changes, nanoclusters and cooperativity in TCR signaling

Balbino Alarcón, Centro de Biología Molecular Severo Ochoa, Madrid

15H00

Signaling inhibition at the onset of T cell activation

Alexandre Carmo, Instituto de Biologia Molecular e Celular, Porto

MARCH 9TH - IBMC MAIN AUDITORIUM | Free Entrance
