

## **GABBA Parasitology Week 2014**

Coordinator: Ana Tomás, ICBAS/IBMC, Porto

May 5<sup>th</sup> to 9<sup>th</sup>

Room "Anfiteatro" C

*Schedule:*

### **Monday, the 5<sup>th</sup>**

9.20h – “Introduction to the course”.

Ana Tomás, ICBAS/IBMC

9.30h – “Modifications in the behavior of hosts induced by parasites”.

Cristina Afonso, Champalimaud Foundation, Lisbon.

11h – “Imaging *Plasmodium* pre-erythrocytic phase”.

Joana Tavares, IBMC, Porto.

### **LUNCH**

14.00h – “Malaria and the problem of Drug Resistance”

Fátima Nogueira, IHMT, Lisbon.

### **Tuesday, the 6<sup>th</sup>**

11h – “Immune response to (and protective mechanisms against) *Neospora caninum* infection”.

Manuel Vilanova, ICBAS/IBMC, Porto

### **LUNCH**

14h – “Functional genomics of vector-parasite interactions: towards disease control”

Ana Domingos, IHMT, Lisbon.

### **Wednesday, the 7<sup>th</sup>**

9.30h – “*Leishmania*, tales of a successful protozoan parasite: new insights into immune response subversion during infection”.

Ricardo Silvestre, IBMC, Porto.

11.15h – “Macrophage effector mechanisms against *Leishmania*”.

Salomé Gomes, IBMC, Porto.

### **LUNCH**

14 h – “Protein glycosylation in Trypanosomes”

João Rodrigues, IMM, Lisbon.

15.15h – “Vector control: the importance of population genetic studies”

Patrícia Salgueiro, IHMT, Lisbon)

## Thursday, the 8<sup>th</sup>

9h- "Cytosolic Peroxiredoxins of trypanosomatids: antioxidant weapons or immunomodulators?"  
Helena Castro, IBMC, Porto.

10h- "When a peroxidase moonlights as a chaperone: a tale of a protein essential for *Leishmania* infectivity.  
Filipa Teixeira, IBMC, Porto.

11,30h- "*Leishmania infantum* infection modulates ferroportin in a hepcidin-independent mechanism".  
Tânia Cruz, IBMC, Porto.

## **LUNCH**

14h- "Aspects of the host-parasite interrelationship" – Paper Analysis and Discussion forum.  
Ana Tomás, IBMC, Porto.

## Friday, the 9<sup>th</sup>

9,15h - "Nitro drugs for the treatment of visceral leishmaniasis".  
Susan Wyllie, Wellcome Trust Biocentre, University of Dundee, Scotland.

10,30h – "Exploring fabric, form and function at the host-parasite interface".  
Catarina Gadelha, Medical School - Queen's Medical Centre, University of University of Nottingham, UK

## **LUNCH with students at "Círculo Universitário"**

14h – "Sleeping sickness: when a parasite makes the internal clock of the host run faster".  
Luisa Figueiredo, IMM, Lisbon
