

Microbiology and Infection

	17 January 2011	18 January 2011	19 January 2011	20 January 2011	21 January 2011
9					
10	Projects / Papers distribution (Audit C)	Papers/Projects (GABBA Room)	Salomé Gomes (Meeting Room 0)	Nuno Santos (Audit C)	Papers/Projects (GABBA Room)
11	Gil Castro (Audit C)		The fight for iron during infection	Bacterial protein toxins	Jaime Mota (Audit C)
12	Understanding BCG infection/vaccination	Sandra Sousa (Audit C)	Papers/Projects (GABBA Room)	Papers/Projects (GABBA Room)	Function of type III secreted effectors of <i>Salmonella</i> and <i>Chlamydia</i>
13		From pathogenesis to cell biology and back			
14	Magarida Correia-Neves (Audit C)	Sergio Filipe (Audit C)	Marc Lecuit (Main Audit)	Paula Ferreira (Audit C)	Projects presentation (Audit C)
15	The impact of thymic mycobacterial infection on T cell differentiation	Bacterial Cell Surfaces and Pathogenesis	Microbes and Host Barriers	Experimental <i>Streptococcus agalactiae</i> infections	
16	Rui Appelberg (Audit C)	Papers/Projects (GABBA Room)	Papers presentation (GABBA Room)	Manuel Vilanova (Audit C)	Conclusions - Discussion (Audit C)
17	Gamma interferon in protective immunity and immunopathology			Microbial biofilms and infection
