

T Cell Activation

15 FEBRUARY 2013
IBMC MAIN AUDITORIUM

14:00 OPENING

14:10

Evidence for, and therapeutic implications of, the kinetic-segregation model of immune receptor triggering

Simon Davis, University of Oxford

14:55

CD3 conformational changes at the $\alpha\beta$ and the $\gamma\delta$ TCR

Wolfgang Schamel, University of Freiburg

15:40 COFFEE BREAK

16:10

CD5, a regulatory hub in T cell signaling
Mafalda Santos, IBMC

16:40

The role of TCR signalling in T cell development

Daniel Pennington, Queen Mary University of London

17:30 CONCLUSION
