

T Cell Activation

24 APRIL 2014
IBMC MAIN AUDITORIUM
FREE ENTRANCE

11:00

Triggering T cell receptors with single MHC-peptide complexes

Michael Dustin, University of Oxford

11:45

T-cell receptor triggering without ligands driven by the extracellular region of CD45

Simon Davis, University of Oxford

12:30 LUNCH

13:45

Dissecting T cell activation and function with intravital imaging

Philippe Bousso, Institut Pasteur, Paris

14:30

Adapters and Kinases in immune cell activation

Burkhard Schraven, Otto-von-Guericke Universität Magdeburg

15:15 COFFEE-BREAK

15:45

Molecular mechanisms underlying IFN- γ -mediated T cell responses

Hannes Stockinger, Medizinische Universität Wien

WITH THE SUPPORT OF SPI
