

GABBA 2013

Microbiology and Infection

	22 April 2013	23 April 2013	24 April 2013	25 April 2013	26 April 2013
9					
10	Projects / Papers distribution (Audit C)				Projects presentation (Audit C)
11		Salomé Gomes (Audit C) The fight for iron during infection	Suzana Salcedo (Main Audit) Brucella subversion of host cell responses		
12	Ana Costa (Audit C) Bacteria and host cell cycle				
13					
14	Sandra Sousa (Audit C) From pathogenesis to cell biology and back: Listeria as a model	Paula Ferreira (Audit C) Experimental <i>Streptococcus agalactiae</i> infections	Jaime Mota (Audit C) Function of type III secreted effectors of <i>Salmonella</i>		Serge Mostowy (Main Audit) Controlling the intracellular fate of cytosolic pathogens
15					
16	Nuno Santos (Audit C) Bacterial protein toxins	Manuel Vilanova (Audit C) Microbial biofilms and infection	Sergio Filipe (Audit C) Bacterial Cell Surfaces and Pathogenesis		Projects presentation (Audit C)
17					
18					Conclusions - Discussion (Audit C)
19
