

GABBA Parasitology Week 2013

April 29th to May 3rd

Schedule:

Monday, the 30th

9.30h – Introduction to the course

Ana Tomás, IBMC, Porto

09.45h – “Modifications in the behaviour of hosts induced by parasites”.

Cristina Afonso, Champalimaud Foundation, Lisboa

11h – “Functional genomics of vector-parasite interactions: towards disease control”

Ana Dmingos, IHMT, Lisboa

LUNCH

13.30h – Student Project Work – Presentation of the projects to the different student groups.

Sandra Carvalho, Helena Castro, Tania Cruz, IBMC, Porto

14.30h – “*Plasmodium*-mosquito vector interactions”.

Henrique Silveira, IHMT, Lisboa.

15.30h – “Malaria and the problem of Drug Resistance”

Fátima Nogueira, IHMT, Lisboa.

Tuesday, the 30th

9.30h – “Immunopathogenesis of *Trypanosoma cruzi* infection”.

Manuel Fresno, Centro de Biología Molecular Severo Ochoa, Madrid.

11h- Student Work

LUNCH

14h- Student Work

Thursday, the 2nd

10h – “Título”

Manuel Vilanova (ICBAS/IBMC, Porto)

11.15h – “Quest for therapies for tropical neglected diseases”.

Helena Castro (IBMC, Porto).

LUNCH

14 h – "*Plasmodium* liver stage: host factors, anti-malarial drugs, and vaccines"" Miguel Prudêncio (IMM, Lisboa).

15.30 h – "Approaching malaria from the host side but not always!"
Maria Manuel Mota (IMM, Lisboa)

Friday, the 3rd

9,30h - "*Leishmania* - tales of a successful protozoan parasite: new insights into immune response subversion during infection".
Ricardo Silvestre, IBMC.

11,00h- "Título".
Salomé Gomes (IBMC, Porto)

LUNCH

14h – Student presentations
